(Mac) DAVINCI RESOLVE 14 Ver. 14.0.1.008

1/1

## SDカードからの取り込み

The screenshot shows the DaVinci Resolve 14 interface. On the left, the Media Storage browser is open, showing a folder structure: A112 > PRIVATE > AVCHD > PANA\_GRP > 001QCQAM. An orange arrow points from the 001QCQAM folder to a text box. The text box contains the following instructions:

MOVは、[PANA\_GRP]  
フォルダを選択  
AVCHDは、[AVCHD]  
フォルダを選択

The main preview window shows a clip titled 'A112C001\_180111\_J703.MOV' with a resolution of 4096x2160 and a duration of 29.970. The clip is being imported into the timeline. The timeline shows the clip with a duration of 02:00:00:00. The bottom right corner shows the Scopes panel with Parade, Waveform, Vectorscope, and Histogram views.

At the bottom center, there is a 'Media' button with a folder icon.
